Introduction

This document provides information about Hot Fix #8 for Tidal Enterprise Orchestrator (TEO) version 2.2.

Prerequisites

Components Used

The information in this document is based on Tidal Enterprise Orchestrator version 2.2.

The information in this document was created from the devices in a specific lab environment. All of the devices used in this document started with a cleared (default) configuration. If your network is live, make sure that you understand the potential impact of any command.

Hot Fix #8

Problem

This hotfix fixes multiple content components in the SAP Incident Analysis Automation Pack, some reports in that Automation Pack, and the InfoPackage RFC used in that Automation Pack.

Solution

Install Hot Fix #8 for TEO 2.2. The hotfix can be found [here](#), or by contacting Cisco Support.

Futher Information

This is a required hotfix for SAP Customers only. Cisco Support can be contacted through standard means.
