## Introduction

Automation Summaries do not display properly in Mozilla Firefox when viewed through UNC Shares.

## Prerequisites

### Requirements

There are no specific requirements for this document.

### Components Used

The information in this document is based on these software and hardware versions:

- Cisco Tidal Enterprise Orchestrator 2.1+
- Firefox
- UNC Share

The information in this document was created from the devices in a specific lab environment. All of the devices used in this document started with a cleared (default) configuration. If your network is live, make sure that you understand the potential impact of any command.

### Conventions

Refer to Cisco Technical Tips Conventions for more information on document conventions.

## Symptoms

Automation Summaries cannot be viewed in Firefox.

## Status

A resolution is available for this issue.

## Resolution

You can either use an IIS Virtual Directory, or configure Firefox so you can continue to use a UNC Share.

In order to configure Firefox, complete these steps:

1. In the Firefox address bar, go to **about:config**, and acknowledge the warning.
2. Find the **security.fileuri.strict\_origin\_policy**, and double-click it in order to set this to false.
