

Register for Cisco DNA Center Assurance Installation/Deployment

Best Practices Group Study Session
for Cisco Partners, End Customers and Internal Sales

We're excited to announce that, Tuesday and Thursday, Cisco is hosting a group study session where you can learn more about installing, deploying and Activating your Cisco DNA Center appliance.

Cisco DNA Center Assurance Installation/Deployment Best Practices Group Study

During this session, we'll walk you through initial setup, Network Cabling, Best practices, Assurance and help you find expert insight into the network hierarchy, device provisioning, and more.

Join us Tuesday at 10a.m. PT (AMER)

or Thursday at 8am GMT/4pm SGT (EMEAR/APJC)

by selecting the registration button below:
