- Demo

# It Starts with Usage Controls and an Active Defense

## Comprehensive Defense

### Web Usage Control

#### Web Filtering

Block over 50 million known malicious sites

#### Web Reputation

Restrict access to sites based on assigned reputation score

#### Dynamic Content Analysis

Categorize webpage content and block sites automatically

#### Web Usage Reporting

Gain greater visibility into how web resources are used

### Web Usage Control

#### Application Visibility and Control

Regulate access to individual website components and

apps

#### Outbreak Intelligence

Identify unknown malware and zero-hour outbreaks in real

time

#### Centralized Cloud Management

Enforce policies from a single, centralized location

#### Roaming Laptop-User Protection

Extend security beyond the network to include mobile users

# And Scales to Meet Changing Business Demands

## Superior Flexibility

Seat-Based Pricing

Bandwidth Pricing

Enterprise Licensing Agreement

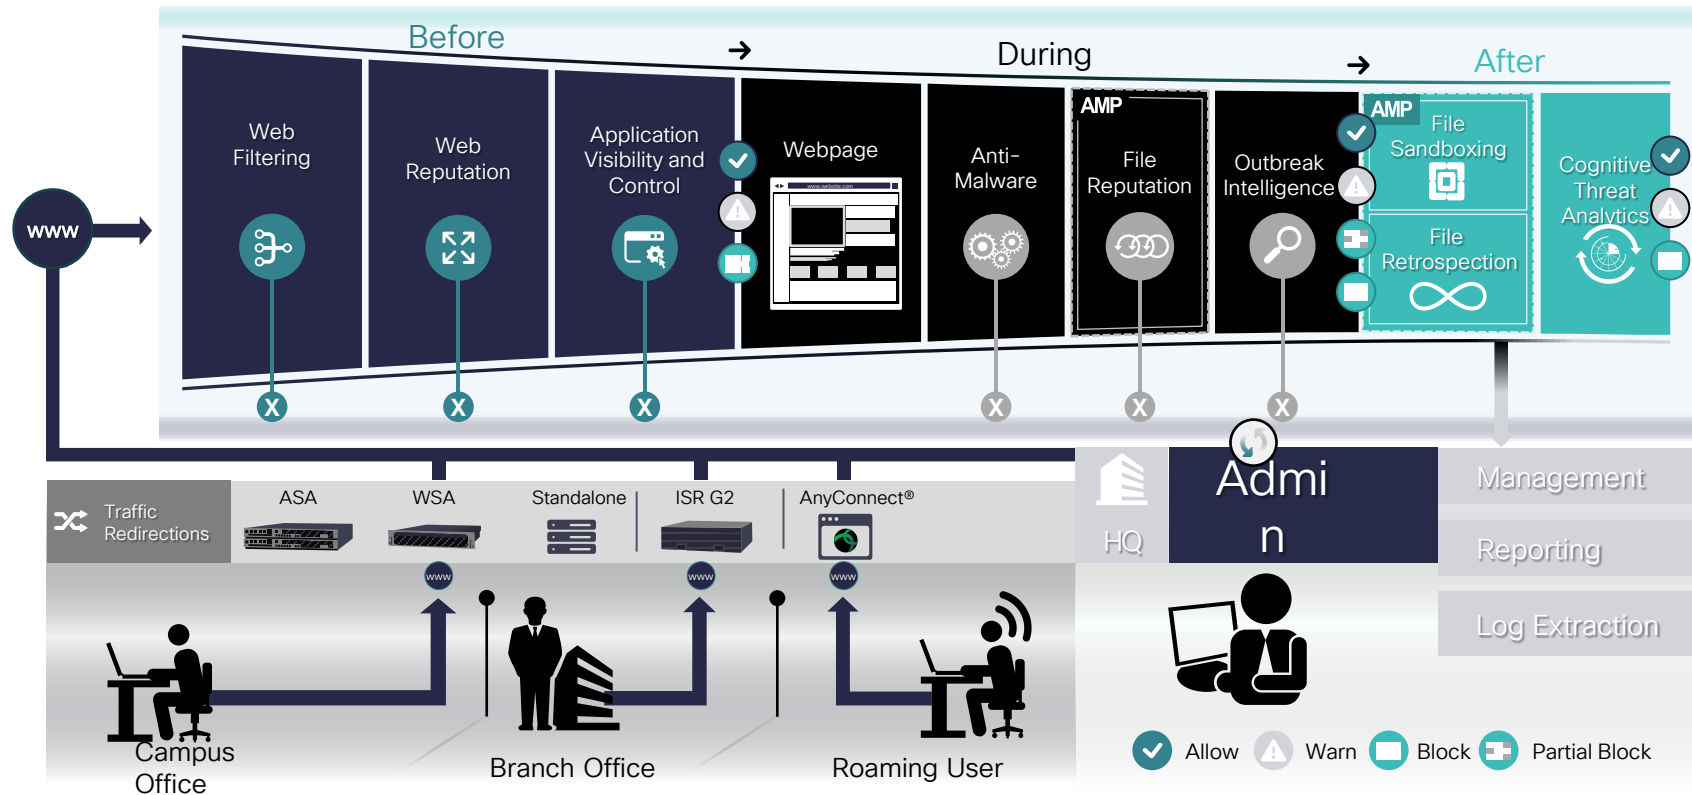

### Flexible Licensing Options

Choose the features you need to meet today's needs and scale the solution as your business grows

### Global Data Center Footprint

Achieve optimal performance as users map to the closest, best-performing of 23 data center locations worldwide
