Secure My Business

AGENDA

1. Introduction

2. Solution Overview – *CTR*

3. Case Studies

4. Demo – *CTR Dashboard*

5. Q&A

6. Conclusion

Solution Overview:

Cisco Threat Response

Our Speaker...

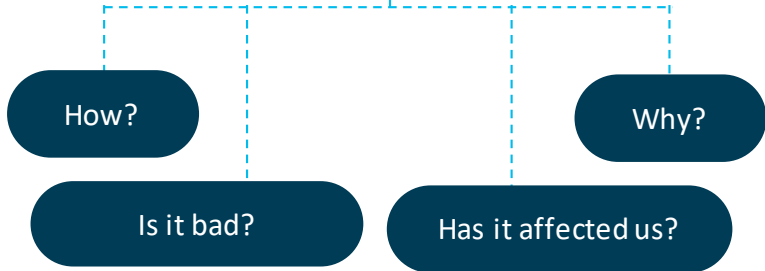

Raj Grover

Security must work together

But too often it doesn't...

Security Operations

Technologies and Intelligence

Threat Intel

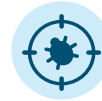

Endpoint Security

SIEM

Next-Gen IPS

Malware Detection

Secure Internet Gateway

Email Security

Web Security

Third party Sources

Network Analytics

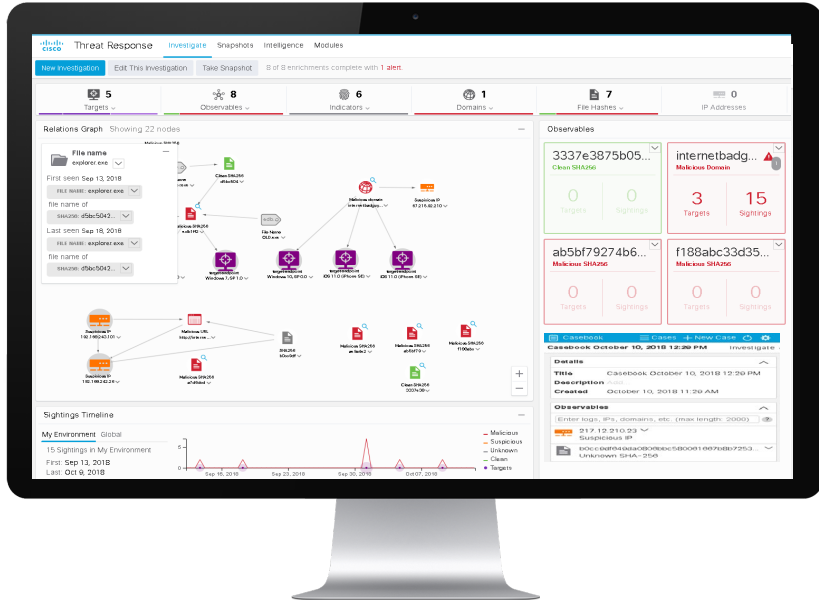

Next-Gen Firewall

Identity Management

Introducing Cisco Threat Response

Unleashing the power of the Cisco Integrated Security Architecture

Key pillar of our integrated security architecture

- Automates integrations across Cisco security products
- Reduces the time and effort spent on key security operations functions:
 - Detection
 - Investigation
 - Remediation
- Included as part of Cisco Security product licenses

Cisco Threat Response in action

Three simple ways to get started

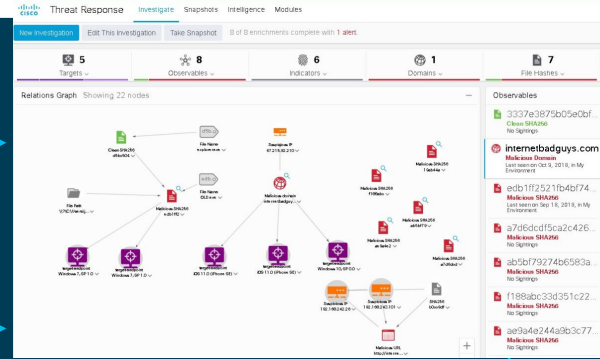

1 Intelligence Sources

2 Casebook via Browser Plug-In

3 High-Fidelity Events

Investigate
(search interface)

Incident Manager

Observables:

- File hash
- IP address
- Domain
- URL
- More...

AMP for
Endpoints

Umbrella

Email
Security

NGFW/
NGIPS

- Have we seen these observables? Where?
- Which endpoints connected to the domain/URL?

Cisco
Talos

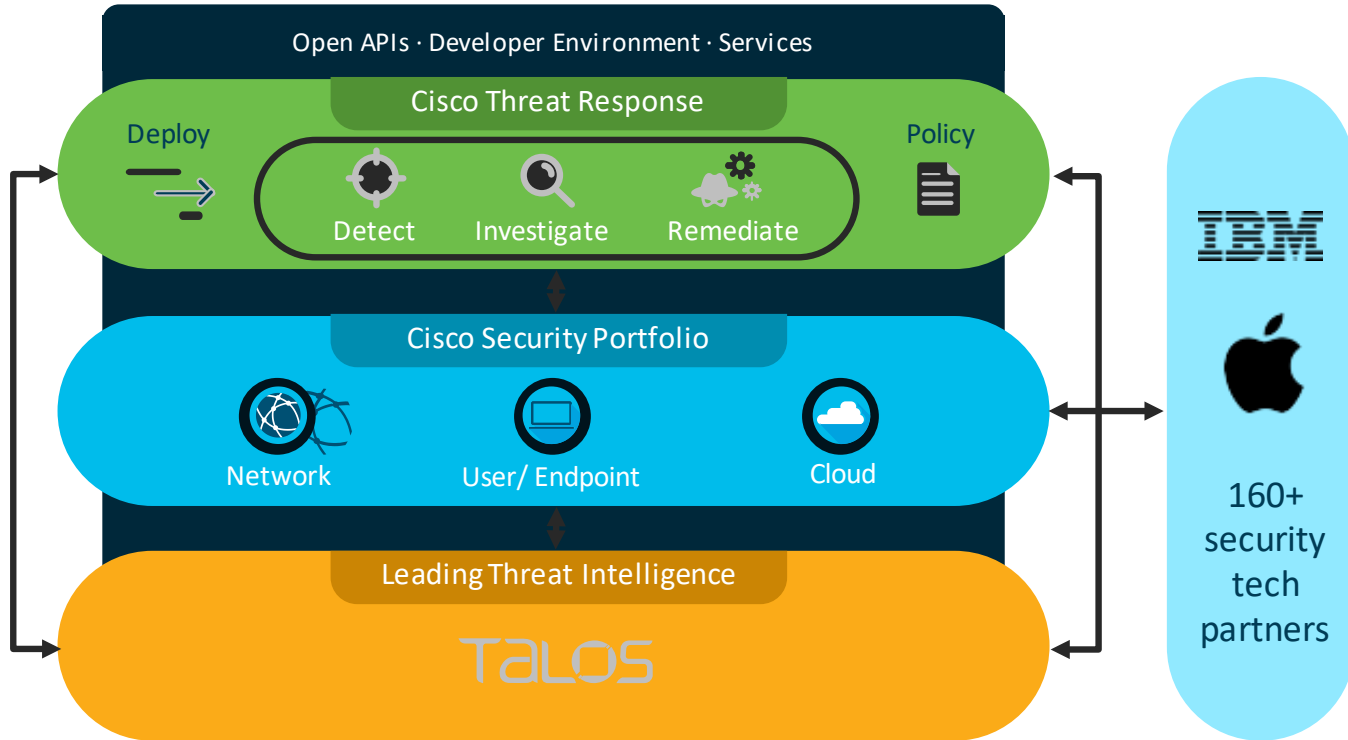

Threat
Grid

Virus
Total

- Are these observables suspicious or malicious?

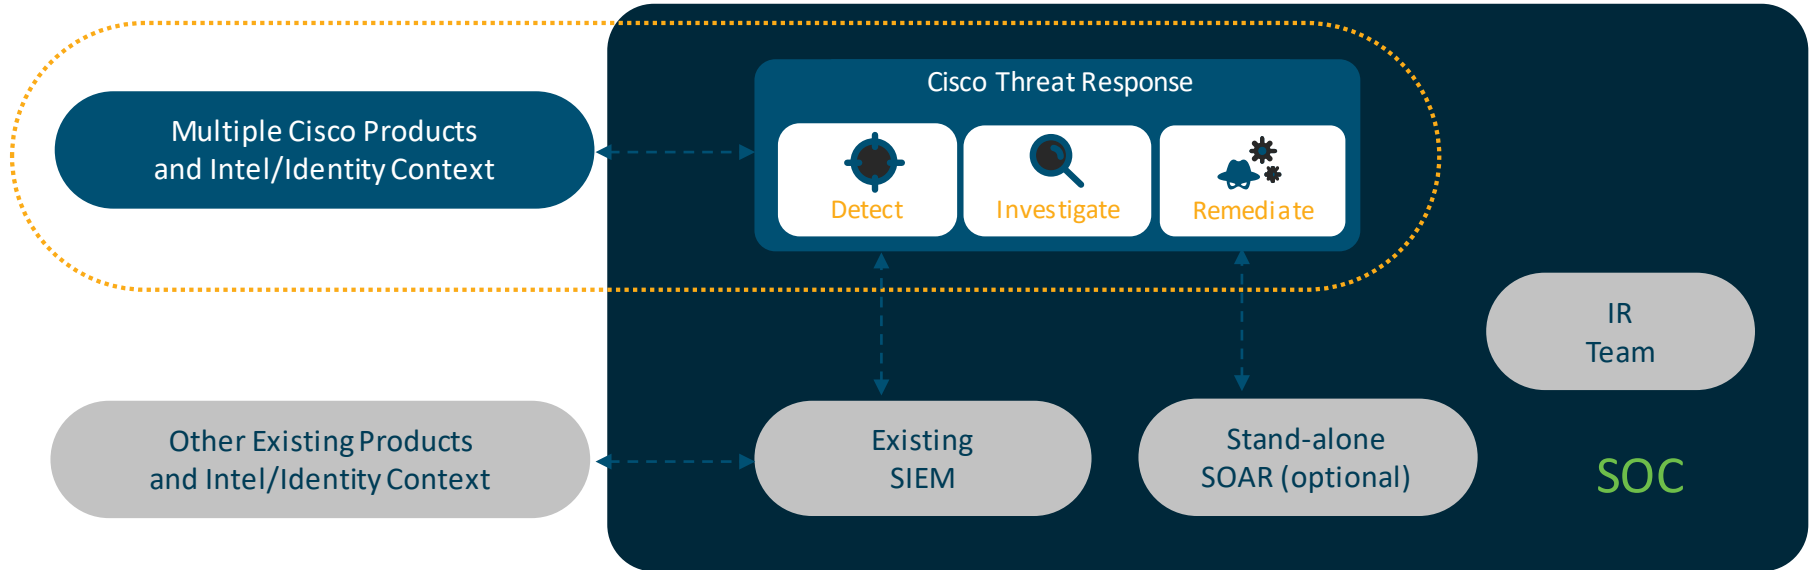

Cisco Integrated Security Architecture

Security that works together
