

# You're invited on a virtual field trip!

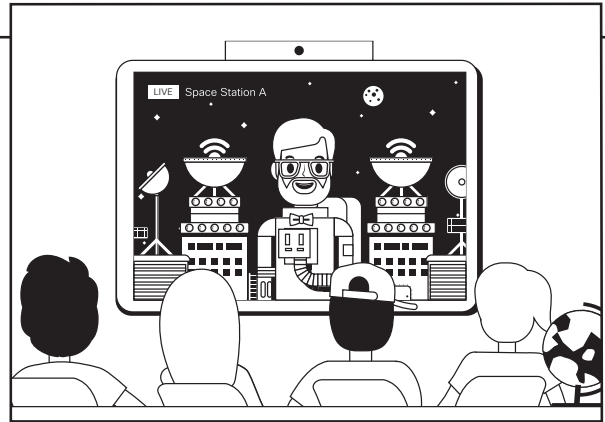

We are excited to announce, we've invested in new technology, making it possible for us to connect our students to anywhere around the world!

Our aim is to expose our students to a variety of different destinations, professions, and opinions, expanding their knowledge and perspective without ever leaving the classroom, and with no extra cost to parents.

We are inviting all parents to come and join us in our first of many virtual field trips. You will have the opportunity to ask questions to our remote expert if you want, but more importantly, you'll witness first-hand the new experience your child will now have in their class.

**If you have any further questions about this, please contact your child's teacher who will be happy to help.**

Let's expand your child's horizons together.

Come to parents night, and watch the magic happen:

**1. Receive your invitation:**

You will receive your invitation via email and will get a reminder before the session starts.

**2. Join the session:**

Come watch in person with the class. Or if you can't come live, click the link in your email invite to join the virtual field trip from home, and you're good to go!

**3. Share feedback:**

You will be added to the class parents Space, where you have the opportunity to provide feedback and discuss any ideas you may have with your child's teacher.

**4. Enjoy:**

Watch your child thrive in this new environment. They are going to love it!
