

Don't miss class because you can't be there.

When a family situation or long-term illness disrupts life, you shouldn't have to give up seeing all your friends and getting to attend school too.

Get things back to normal and slowly ease back into class remotely, all from the comfort of your own home over Webex.

GET STARTED:

Download the Webex Meetings and Webex Teams apps to your mobile phone, tablet or laptop.

1. **We've missed you:**

When you're ready, say "hi" to all of your classmates in your Webex Team Space or, have a video call and catch up on any important news.

2. **Learn from your couch:**

Your teacher can invite you to join a live video stream of class over Webex so you can attend class straight from your couch. All you need is the Webex app to join.

3. **Workout answers together:**

Use the digital Whiteboard to figure out answers with your classmates. Scribble ideas, draw diagrams, or play a game for some quick fun.

4. **Share your work:**

Send your work to your teacher over Webex Teams when you have finished an assignment so they can mark it and send it back for you to review.

Don't miss out on the fun!
Getting back on track has never been easier.
