

Visit classrooms no matter where you are.

As a busy administrator your time is precious, but you know how important your classroom visits are to teachers and students. Often these observations get rescheduled and delayed because of all your other responsibilities.

Webex makes it easy to attend classroom observations from wherever you are, with no disruption to students. Observe your teachers in action virtually, over Webex.

1. Arrange a date:

Confirm a mutually agreeable date for the classroom visit.

2. Send the invite:

Simply invite the teacher to join you in your Webex Meetings room at the agreed date and time (the link to join will stay in their calendar).

3. Watch the class, virtually:

Click the link in your email invite or join from your Webex Teams app and you're both good to go! The teacher will join you on a video device at the front of the class.

4. Create a Space:

To stay connected after your observation, use Webex Teams as one place to have an ongoing conversation with the teacher.

PRO TIP

Remember to record your session so you have it for future reference

Classes can be virtually observed with no distraction to students, providing a true snapshot.
