

Today I accepted the terms of Cisco Services Access Management and would like to know how long time the <https://services.cisco.com> portal will be available.

The page does not load and returns to the registration portal.

I gave myself some permissions, but I did not succeed.

The screenshot shows the Cisco Services Access Management Admin Console. The user is Marcelo Rodrigues (irbrasile) with My Account and Log Out options. The navigation menu includes Home, User-Company Associations, User-Role Assignments, Administrators (selected), Settings, and Other. A welcome message is displayed for Marcelo Rodrigues, Company Administrator, IRB BRASIL RESSEGUROS SA. The view is set to 'My Locations Only' with options to 'View active status only' or 'View all records'. The 'View Existing Administrators' section shows a table with 10 items per page. The table contains two entries for Marcelo Rodrigues, both with Cisco ID 'irbrasile' and email 'eq\_datacenter@irb-brasilre.com.br'. The first entry is an 'Internal Role Administrator' with status 'Awaiting Agreement Acceptance' and reviewed on 'Mon May 20 11:18:48 PDT 2019'. The second entry is a 'Company Administrator' with status 'Approved' and reviewed on 'Mon May 20 05:30:12 PDT 2019'. A 'Remove' button is visible at the bottom left of the table.

Name	Cisco ID	Email	Company	Administrator Type	Status	Reviewed	Approval Info
Marcelo Rodrigues	irbrasile	eq_datacenter@irb-brasilre.com.br	IRB BRASIL RESSEGUROS SA	Internal Role Administrator	Awaiting Agreement Acceptance	Mon May 20 11:18:48 PDT 2019	
Marcelo Rodrigues	irbrasile	eq_datacenter@irb-brasilre.com.br	IRB BRASIL RESSEGUROS SA	Company Administrator	Approved	Mon May 20 05:30:12 PDT 2019
