

CISCO ONPLUS SERVICE

SPECIAL PROMOTION

Cisco OnPlus Service

Cisco OnPlus™ Service is a cloud based platform, hosted by Cisco, that enables registered Cisco reseller partners serving small businesses to economically offer network assessment and managed network services through the discovery, monitoring and remote management of their small business customer networks. The Cisco OnPlus Service includes an appliance, the ON100 Network Agent, which is deployed at each customer site as a local agent that discovers devices on the network and sends and receives data from the Cisco OnPlus portal.

Special Promotion

- **Promotion Details:** Special introductory Not-For-Resale (NFR) promotion where a subscription to the OnPlus Service is available at no cost. The offer is a 3 year subscription to the OnPlus

Service that includes access to an online portal, OnPlus ON100 Network Agent and access to a Mobile App! An OnPlus subscription is required for each end customer site to be managed.

- **Targeted for:** New Cisco reseller partners that want to get started with the Cisco OnPlus Service. These are partners who are looking for the right set of capabilities that will enable them to offer managed network services to their small and medium business customers
- **Eligibility:** Registered Cisco Partners (or above). As partners get started with their initial OnPlus deployments, Partners must be willing to share their feedback and experience in using the service
- **Geography:** US Only
- **Duration:** Dec 13, 2011 to Jan 27, 2012
- **Quantity:** Limit 3 OnPlus Subscriptions per Partner
- **To avail the offer:** Interested partners can contact their local Cisco sales representative or initiate order in the Cisco Commerce Workspace at <https://cisco-apps.cisco.com/cisco/psn/commerce#>
- **OnPlus Service Part Number:** ON100-K9
- **Promotion Code:** PP-NFRC57410-110731
PP-NFRC57410-110731
