

Don't miss a beat.

Seamless mobility.

Stops and starts are disruptive. We've got you covered.

Imagine you've grabbed an empty room for an urgent meeting, but people arrive to claim it midway.

With Webex Room devices, it's easy to just move the meeting from the device to your mobile or desktop. Keep talking while you walk to the next room. Then move it back to the big screen, and you won't miss a beat.

Or, if you're running late for a meeting you can join from your mobile phone in your car and move the meeting to any Webex Room device once you're in the office.

Try today, it's easier than you think.
