Hey, I'm a Webex Share device, see what I can do

## Share your devices screen on any display

Cisco Webex Share is a palm-sized device that plugs into the HDMI port on your display, to turn it into a wireless presentation screen with the Webex Teams or Webex Meetings app.

Connect wirelessly to a monitor, display, or TV

STEP 01

Open the Cisco Webex Teams app on your laptop or mobile device.

Automatic pairing starts.

STEP 02

Make sure that you can see the device name on the bottom left.

If you don't see the device name, pair manually. Click on the device name.

STEP 03

Click Share Screen.

STEP 04

Click Stop to stop sharing.
