```

Unified Communications Manager 11.5.1.10000-6

-----| First Node Access Configuration

Connectivity to First Node:

Host Name      DBPub_____
IP Address     .138.10____
Security Password *****
Confirm Password *****
  
```

```

Unified Communications Manager 11.5.1.10000-6

-----| Error -----

Configuration validation with DBPub (.138.10)
failed.

Configured first node DBPub is not a First Node.

- Is DBPub entered correctly?
- Is DBPub the correct first node for this node?
  
```
