- 5) Wait for the license information to be processed and you will get the License Generation Confirmation:

The screenshot shows the Cisco Product License Registration page. At the top, there is a Cisco logo and navigation links: Worldwide [change], Logged In | Account | About Cisco. Below this is a search bar with a 'Go' button. A horizontal menu contains links: Solutions, Products & Services, Ordering, Support, Training & Events, and Partner Central. The 'Support' link is highlighted. Below the menu, there are links for HOME and Product License Registration. The main heading is 'Product License Registration'. A green box with the text 'Registration Complete' is displayed. Below this box, a paragraph of text states: 'Thank you for registering your product with Cisco Systems. Your registration is complete. Your license/s and user information will be sent via email within 1 hour to the email address you specified during the registration process. If you have not received an email within 1 hour, please open a Service Request using the TAC Service Request Tool. Please have your valid Cisco.com user Id and password available. As an alternative you may also call our main Technical Assistance Center at 800-553-2447. Please be sure to check your Junk/Spam email folders for this email from licensing@cisco.com with your license key attached.' Below the text is a 'Download License' button. On the right side, there are links for Help and Feedback, and a 'Related Tools' section with links for Dynamic Configuration Tool and TAC Service Request Tool.

- 6) Check your email for the mail with the generated license file attached:

Your Cisco Secure Access Control Server Evaluation license key

Options Included: No additional features have been selected for this product.

LICENSE KEY INSTALLATION INSTRUCTIONS

Attached to this email you will find a file with the ".lic" extension. This is the file that will activate the ACS 5.0 Eval version that you have requested. Do not edit the contents of the .lic file in any way or you will render this file useless.

Note: To access ACS Admin UI: <https://hostname> or IP address>

Step 1. Once you receive your license file, save it into the system on which you are using to connecting with the ACS administrator user interface (i.e. The VMware Virtual Infrastructure Client for the ESX
