

Works => EasyConnect of users

|             |  |                   |   |
|-------------|--|-------------------|---|
| ✓ Employees | PassiveID-PassiveID_Groups EQUALS G[redacted]:g[redacted].com/DomainGroups/Employees | * Employee Access | + |
| ✓ Default   |  | * AD Access       | + |

Doesn't work => EasyConnect Machine and User authentication using MAR

|             |   |                   |   |
|-------------|---|-------------------|---|
| ✓ Employees | AND<br>PassiveID-PassiveID_Groups EQUALS G[redacted]:g[redacted].com/DomainGroups/Employees<br>PassiveID-PassiveID_Groups EQUALS G[redacted]:g[redacted].com/Users/Domain Computers | * Employee Access | + |
| ✓ Default   |   | * AD Access       | + |

Works => 1X Native Windows Suppliment  
Machine and User authentication using MAR (once I disable EasyConnect)

|                   |  |                   |   |
|-------------------|--|-------------------|---|
| ✓ Employee Access | G[redacted]:ExternalGroups EQUALS g[redacted].com/DomainGroups/Employees | * Employee Access | + |
| ✓ Machine Access  | G[redacted]:ExternalGroups EQUALS g[redacted].com/Users/Domain Computers | * Machine Access  | + |
| ✓ Default         |  | * DenyAccess      | + |
