

ODM Strategic Component Cost Report

Suppliers in the OEM/ODM commodity space will use this report to inform negotiations with the underlying cost of strategic components.

1. From the Landing page, select the drop-down navigation menu and select Analytics to go to the Analytics page.

2. On the Analytics page, select the radio button to generate the report.

4. Use the CPN, Quarter, and ODM Supplier fields to define the search criteria for the ODM Report.

3. Open the drop-down menu and select ODM Strategic Cost Report.

6. The user can download the report in a CSV file by clicking here.

5. For suppliers in the OEM/ODM space, when the report is run with applicable search criteria, the output will be displayed as shown.
