

## Your Home in Webex Teams has a new look!

Profile picture and status have moved.

Search and filters are now located here.

The dark background helps you scan the Spaces list more easily and distinguish it from the messaging activities.

## Spaces

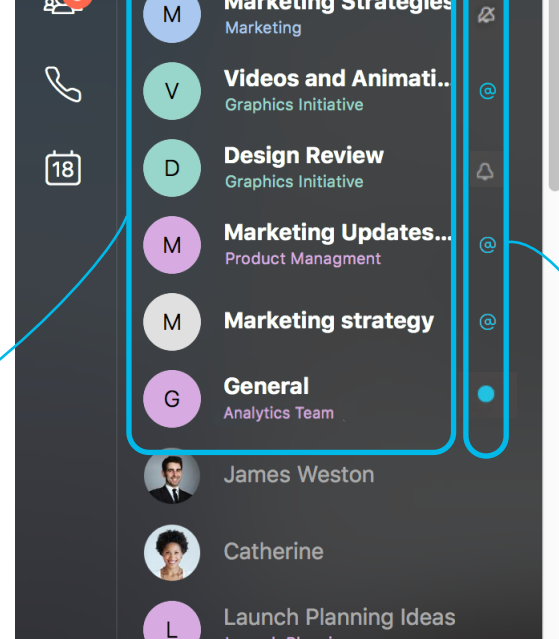

Change your picture and name, set your status, and get to your settings.

We've limited what shows in the list to make it easier to scan and to show more spaces at once.

Create spaces and invite people.

Notification icons have moved to the right.

Focus on team and space names with updated fonts and colors.

## Search

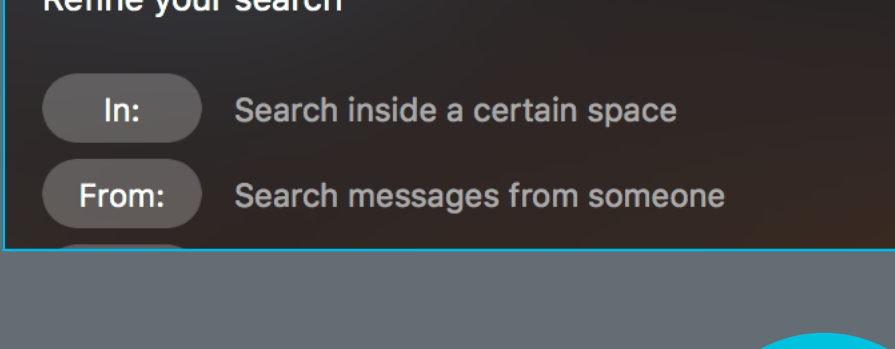

Search helps you find people, spaces, messages, and files even if you only remember part of their names.

Just click **Search** and enter the text you're searching for.

Sort through the results using **Spaces**, **Messages**, or **Files**.

Call someone or start an instant meeting in a space from the search results.

Narrow your search further using **In:** and **From:**

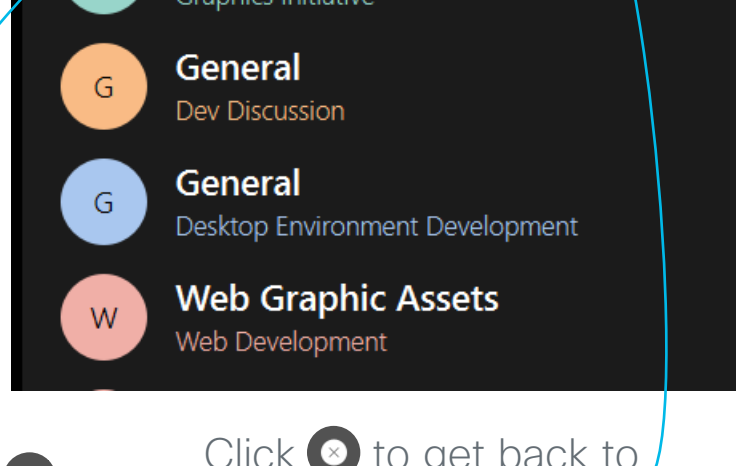

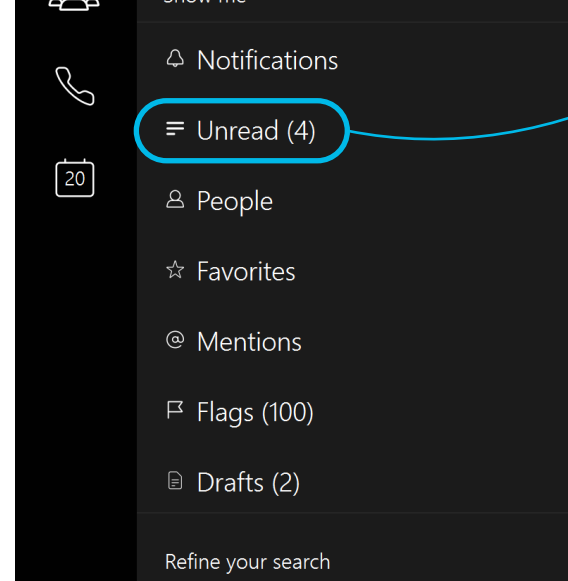

## Filters

Click **Search** to show your familiar filters.

Click **Cancel** to get back to the Spaces list.

Focus your attention on a specific set of spaces.

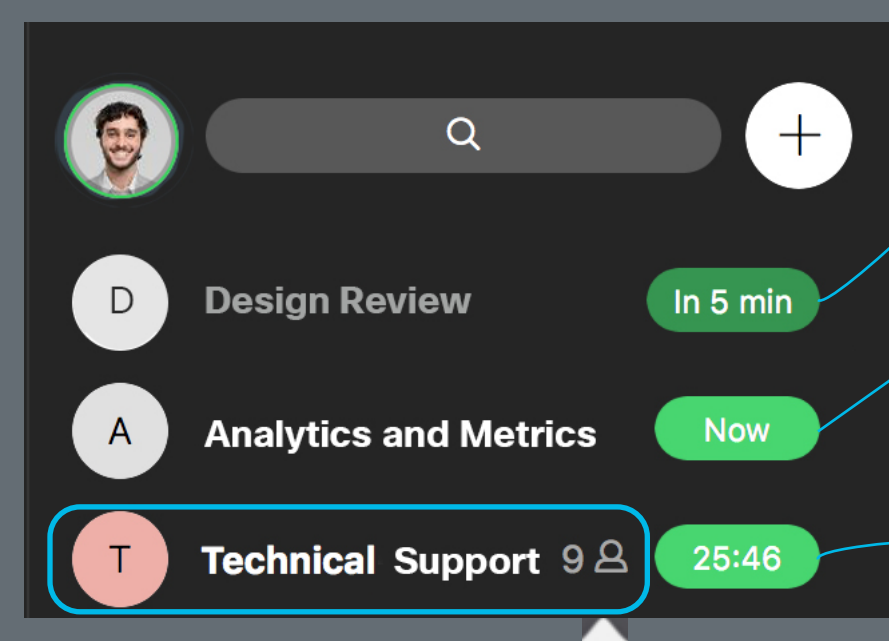

Click refresh to clear the list as you read the messages.

Click to get back to the Spaces list.

## Meetings

## Meetings

### Before meeting

Counts down to your meeting start time.

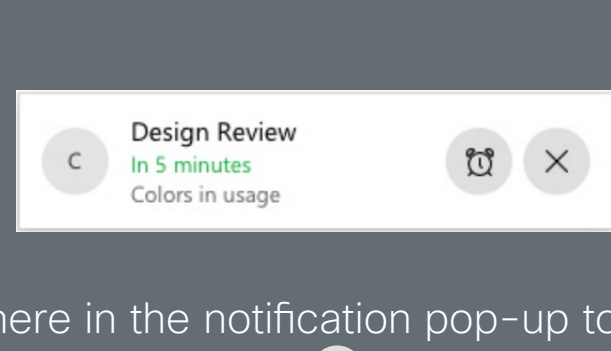

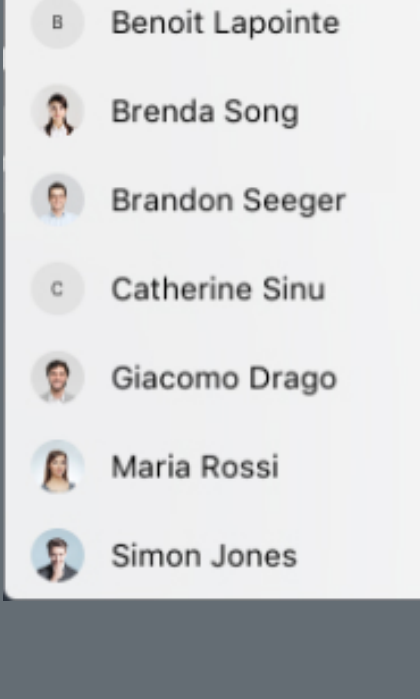

### Meeting start

Shows **Now** when it's time to join.

### Meeting in progress

Shows elapsed time since meeting started.

You can see how many people have joined. Hover or click to see everyone's names.

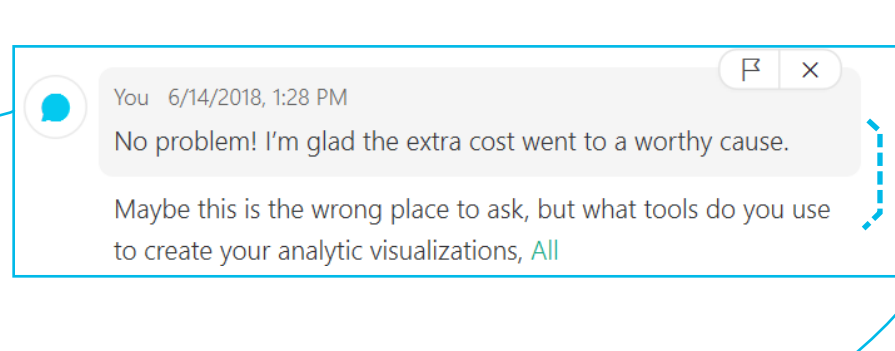

Click anywhere in the notification pop-up to join a meeting. Click Snooze to postpone. Or, click to dismiss the reminder entirely.

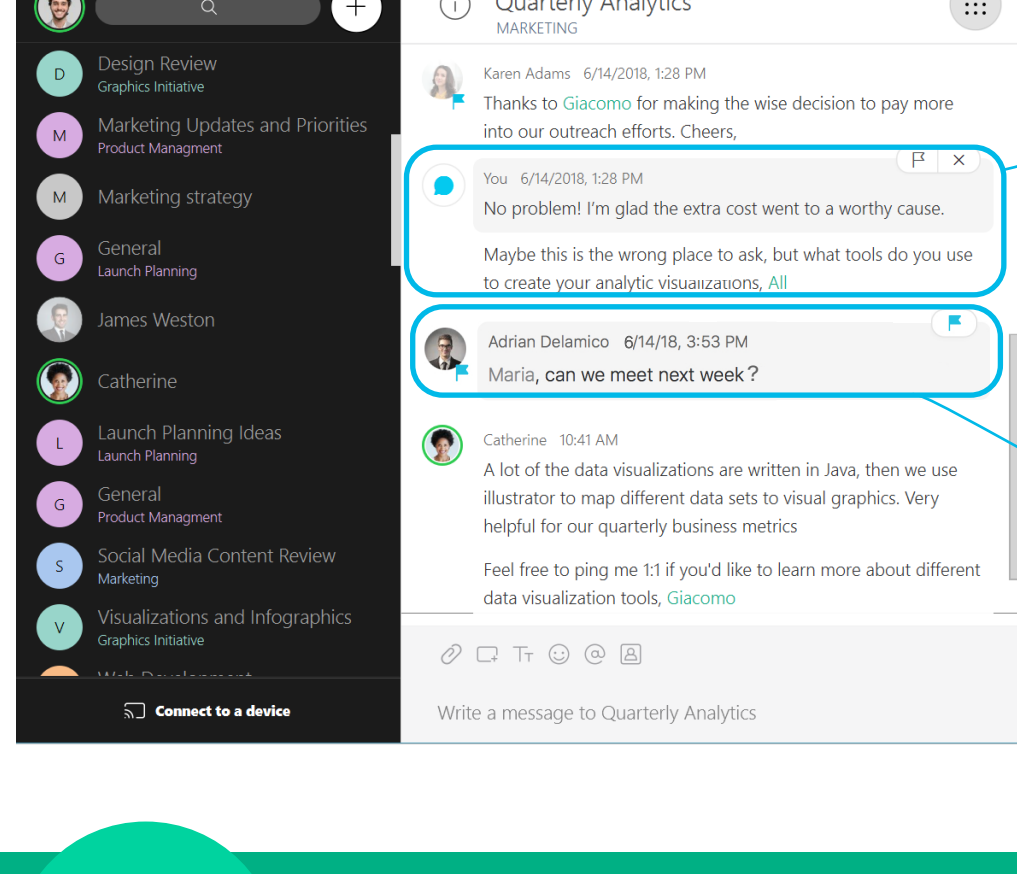

## Messages

New icon shows next to your messages.

Improved line spacing makes it easier to read messages.

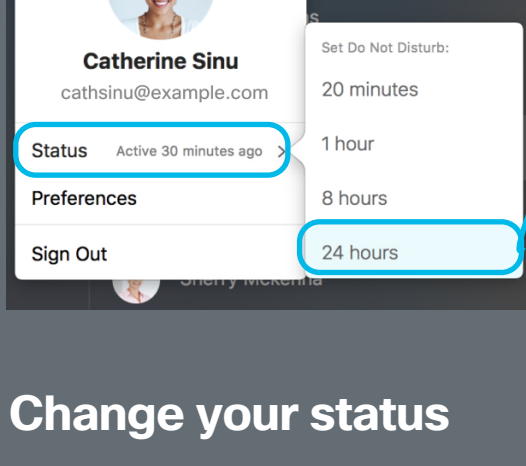

Easier to see when you've flagged a message.

## Profile Picture

## Profile Picture

### Update your profile picture and name

Click your profile picture and name to update them.

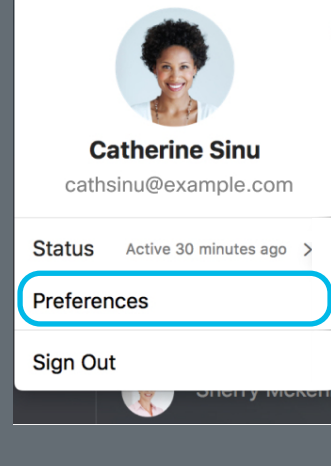

New moon icon shows over your profile picture when you set your status to Do Not Disturb.

### Change your status

Click your profile picture next to the home icon to update your status.

### Access your settings

Set your notifications, audio and video settings, and more.
