research
to us

Get up to speed on everyone you collaborate with.

Meeting someone new, but don't have time to prep?
People Insights for Cisco Webex and Cisco Jabber serves up
the latest on your contacts including bios and recent news,
professional history, and key company info, all within your meeting.

Ready to start?

Access People Insights.

People Insights is now available on Webex Meetings, Webex Teams, and Jabber, with more integrations to come. This is currently an English-only release, and profile information is generally limited to US-based users for now.

Review and edit your public profile.

Take a look at your profile and make sure you look good! Anyone can view and edit profiles including meeting guests.

- 1 Visit people.webex.com anytime to review, edit, or hide your profile.
 - 2 When viewing your own profile within Webex Meetings, Webex Teams, or Jabber, click Edit to make changes, or Hide to keep your information private.
-

View person profiles.

In Webex Meetings, open the **Participants** list and click the contact card icon next to an attendee's name to see their bio, employment and education history, recent news, and more.

In Webex Teams and Jabber, learn more about your coworkers with newly enhanced contact cards. Here you can click the contact card icon to view anyone's People Insights profile.

View company profiles.

When viewing someone's People Insights profile, click the **company tab** or **company logo** to learn more about the company, see the latest stock price, and catch up on recent news.
