Meeting someone new but don't have
time to prep?

We're all busy running from one meeting to another, which doesn't give us much time to prepare for the next. Yet knowing who you're meeting with and building relationships is the key to successful outcomes.

Searching the company directory and looking at professional networking sites isn't the most effective way of learning more about a person's background or what they do.

Let us do the research for you.

People Insights builds rich profiles with information gathered from publicly available sources. Quickly learn more about the people you collaborate with in Webex Meetings, Webex Teams, and Jabber. You'll also find company directory details for contacts from your own organization.
