

Insights on everyone you collaborate with.

Get acquainted quickly.

Learning about your new project team and building relationships can take time and effort, and creating good working relationships with external vendors or experts can take even longer.

Find common ground faster.

With People Insights in Cisco Webex and Cisco Jabber, you can learn more about people on the fly.

In a Webex Meeting? Click the contact card icon next to anyone's name to see their employment and education history, company information, and more.

In Webex Teams and Jabber, your coworkers' contact cards will now display internal directory info. From here, click the contact card icon to view anyone's full People Insights profile.
