UCCX rest Api for DNC Jan 9, 2018 10:48 PM

Hi There,

I am working on an UCCX outbound solution and facing some issue for deleting the contacts from running campaign.
Is there any way to remove uploaded contacts from any running campaign in Uccx?

Regards,

Akshay

No, I don't think there's any.
You can not remove a contact from a CCX campaign once it is uploaded.

Hi Ammara,

Thanks for the information.

UCCX rest Api for DNC

Is there any possiblity in future to provide this feature with UCCX.
