# Customiza el Lobby o añade a un intérprete de señas

The screenshot shows a web browser window at go.webx.com with the heading "Customize lobby". Below the heading, there is a text block: "Customize your meeting lobby with logo, banner image, and welcome message. The customization applies to all meetings you create. Meeting visitors can view the lobby information before the meeting starts. Please avoid sharing sensitive data." Below this is a "Preview" section. The preview shows a dark-themed lobby for "Sonali Pritchard's Personal Room" with a welcome message: "Thank you for waiting. We'll start the meeting when the host joins." and "10 other people are waiting in the lobby." A video player shows a meeting room scene with four people. At the bottom, there are radio buttons for "Light theme" and "Dark theme", with "Dark theme" selected.

The screenshot shows a Webex meeting interface. At the top, there are three small video thumbnails of participants. Below them is a large video player showing a meeting room scene with four people. A caption "Great Wall" is visible at the bottom left of the video. To the right of the main video is a smaller video player showing a sign language interpreter, Emily Nakagawa, with a caption "Sign Language Interpreter - Emily Nakagawa". At the bottom of the interface, there are several control buttons: "Unmute", "Stop video", "Share", "Record", and a "Lobby" button in the top right corner.

# Ausentarte de la reunión

The screenshot displays a Webex meeting window. At the top, a notification bar reads: "It looks like you've stepped away from the meeting. You're muted and your video is off." Below this, a grid of video thumbnails shows several participants. The top-left thumbnail is a placeholder for a participant who has "Stepped away", indicated by a coffee cup icon and the text "Stepped away" and "Clarissa Smith". The other thumbnails show active participants: a man with glasses, a woman with curly hair, a group of people in a meeting room labeled "GREAT WALL", a woman in a white shirt, and a man with a headset. On the right side, a "Participants (6)" panel lists the attendees: Clarissa Smith (Host, me - Stepped away), GREAT WALL, Sofia Gomez, Henry Riggs, Isabella Brennan, Marise Torres, and Umar Patel. At the bottom, a control bar includes buttons for "Unmute", "Start video", "Record", and "Exit".

# Slido

Webex Meetings

Slido

Inteligencia Artificial en  
Collaboration

# Slido se simplifica para que todos lo puedan utilizar

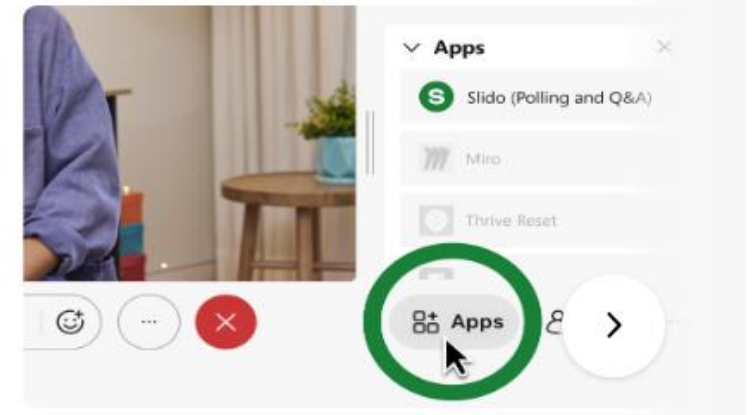

Reúnete e interactúa en un solo lugar con Webex y Slido

Slido te permite crear encuestas en segundos e interactuar con todos los asistentes, directamente en tus Reuniones de Webex.

Contacta a tu administrador de TI para habilitar Slido en Webex

En tu administrador de sistemas para Webex necesitas habilitar Slido desde el Control Hub.

Añade aplicaciones como Slido y adminístralas desde el panel

Inicia tu reunión de Webex y lanza Slido desde el botón de Aplicaciones. Al abrir Slido podrás crear preguntas, modificar su contenido e incluso alterar el orden.

# Q&A con Slido con modo moderador

The image shows a Zoom meeting interface. At the top, there are four video thumbnails of participants. Below them, a toolbar indicates 'You're sharing Presentation1' with navigation arrows, a '200%' zoom level, and an 'Annotate' dropdown menu. A 'Stop sharing' button is also visible. The main area displays a presentation slide with a dark blue background and a white text box containing a list of options: 'Automatically optimize', 'Share computer audio', 'Show me in front of presentation', 'Show participant video and meeting control window', 'Annotate', 'Annotation privilege', 'Give remote control...', and 'Remote control privilege'. A sub-menu for 'Remote control privilege' is open, showing 'Automatically accept all requests' and 'Other users need to ask for approval'. On the right side, a sidebar shows a Q&A section titled 'Audience Q&A - Open'. A question from 'Luis Gomez Rocandio' at 9:34 AM is displayed: 'se puede hacer traducción de las preguntas y respuestas?'. The question has a green checkmark and a 'Dismiss' button. Below the Q&A section, two blue text boxes provide instructions: '1. Aprobar pregunta (la pregunta queda en espera)' and '2. Descartar pregunta (la pregunta será eliminada)'. At the bottom, a toolbar contains buttons for 'Unmute', 'Start video', and other meeting controls.

1. Aprobar pregunta  
(la pregunta queda en espera)

2. Descartar pregunta  
(la pregunta será eliminada)

About Meeting summary Transcript Chat messages Recordings

### Meeting notes

Generated by AI Assistant

The meeting discussed the use of AI assistant and transcription features in Webex meetings, along with new chat function features, integration with Webex Calling for transcriptions of voice messages, and the capabilities of Bitcast in multiple languages, exporting and importing videos, providing summaries and highlights using AI, as well as privacy settings, editing options, and sharing capabilities.

- The meeting discusses the use of an AI assistant and transcription feature in Webex meetings.
- Participants can activate the transcription feature and access a summary of the meeting.
- The chat function has new features, such as translation and formatting options.
- Webex Calling integrates with the platform, allowing transcriptions of voice messages.
- The speaker discusses the features and limitations of using the web platform and Webex for meetings.
- They mention that Bitcast is available in multiple languages and allows for video exporting and importing.
- The speaker explains the use of artificial intelligence in Bitcast, including providing summaries and highlights of sessions.
- They also discuss the privacy settings, editing options, and sharing capabilities of Bitcast videos.

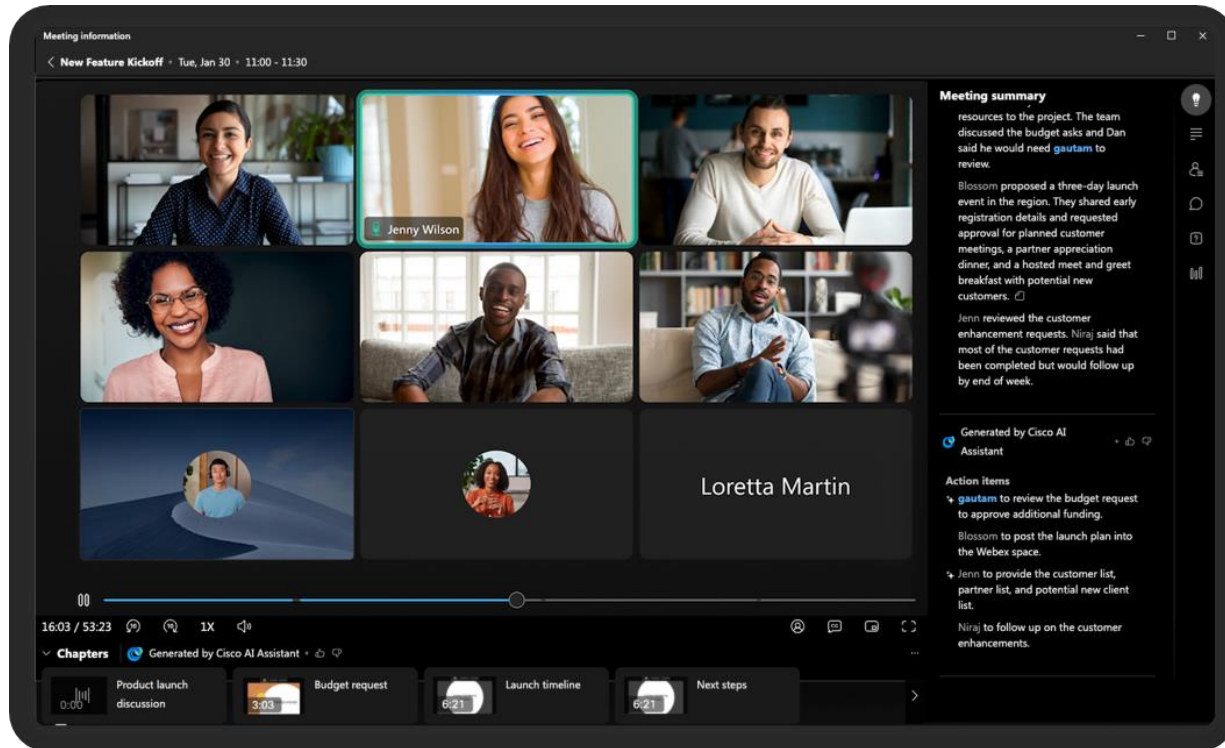

### Action items

Generated by AI Assistant

- Practice the presentation and provide feedback on timing
- Check if the new features are available in the Webex suite and inform users to contact their service administrator for updates

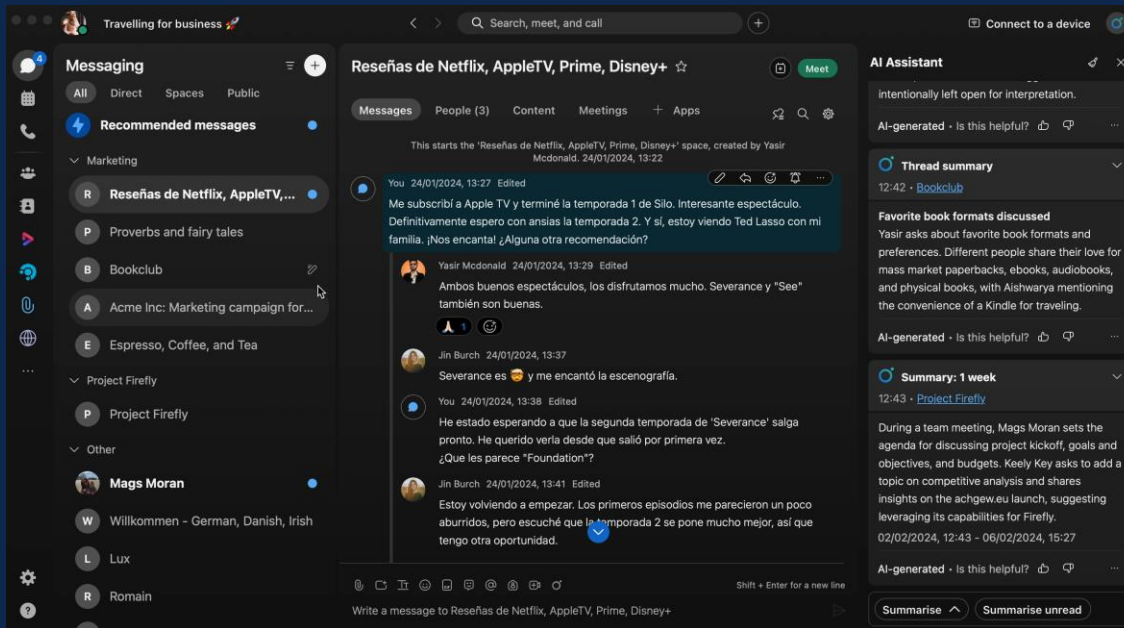

# Póngase al día en la reunión o grabación

- La inteligencia artificial puede brindar un resumen de la reunión en tiempo real y proporcionar otro al término de la sesión.
- También le informará si alguien realizó alguna mención de su nombre.
- Entregará los puntos más relevantes mencionados en la reunión.

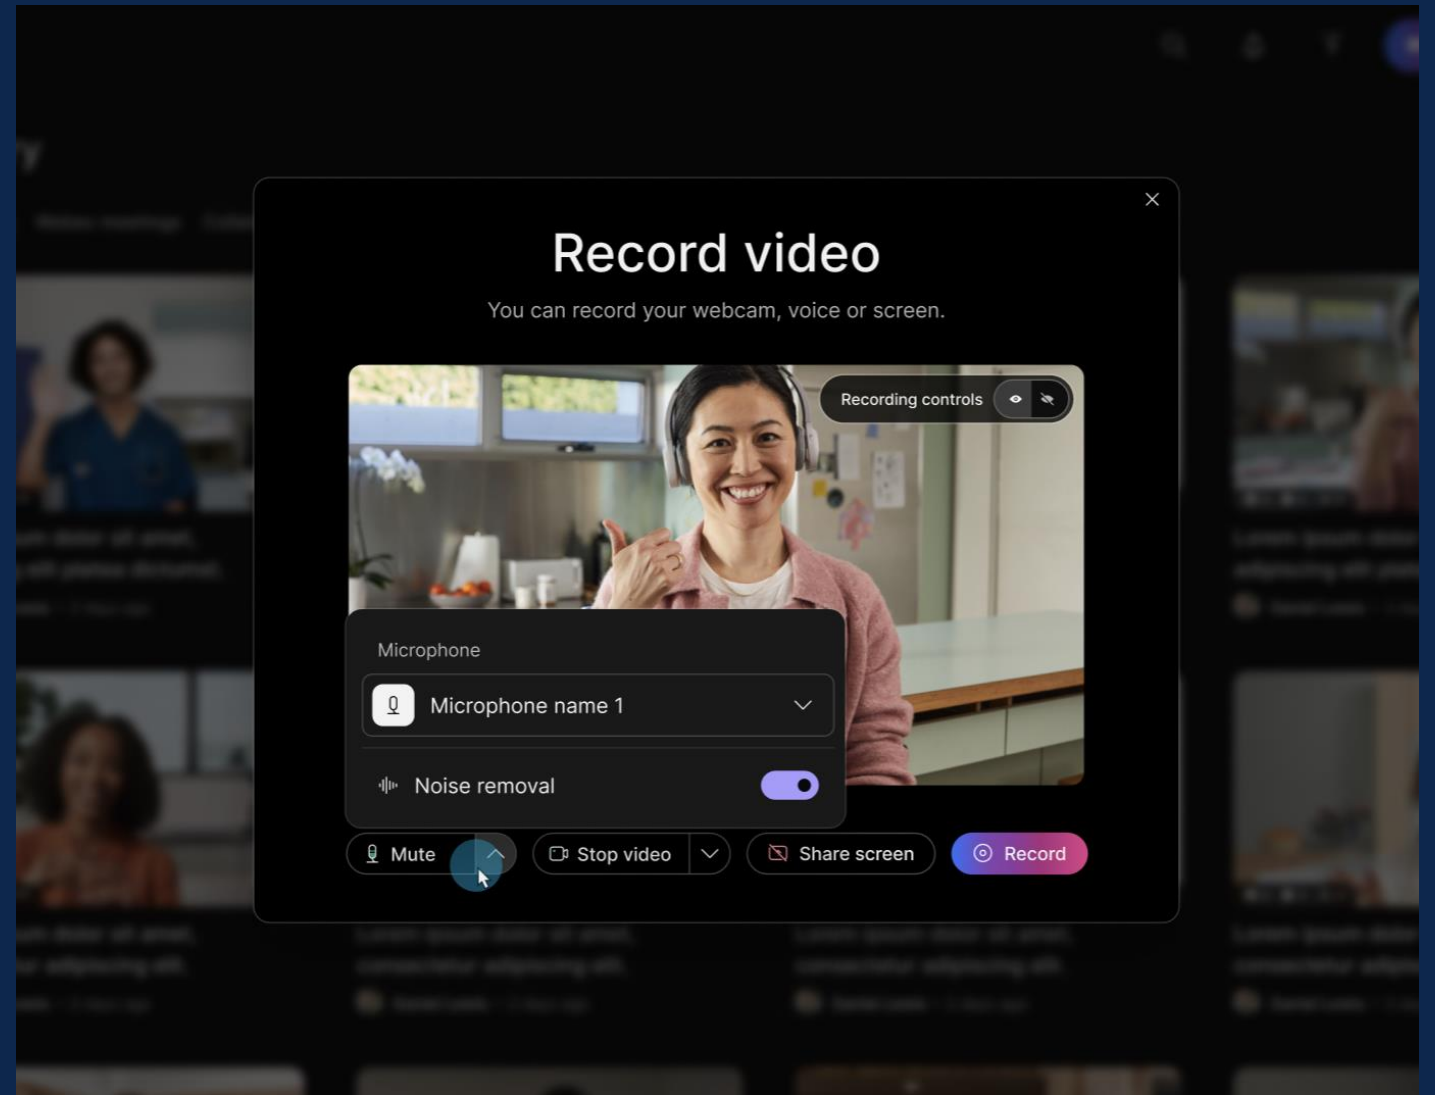

# Traducción de mensajes

- Webex App le apoya traduciendo mensajes en sus chats 1,1 o en sus espacios de trabajo.
- Puede traducir solo un párrafo, o bien, activar la traducción en tiempo real de toda la conversación.

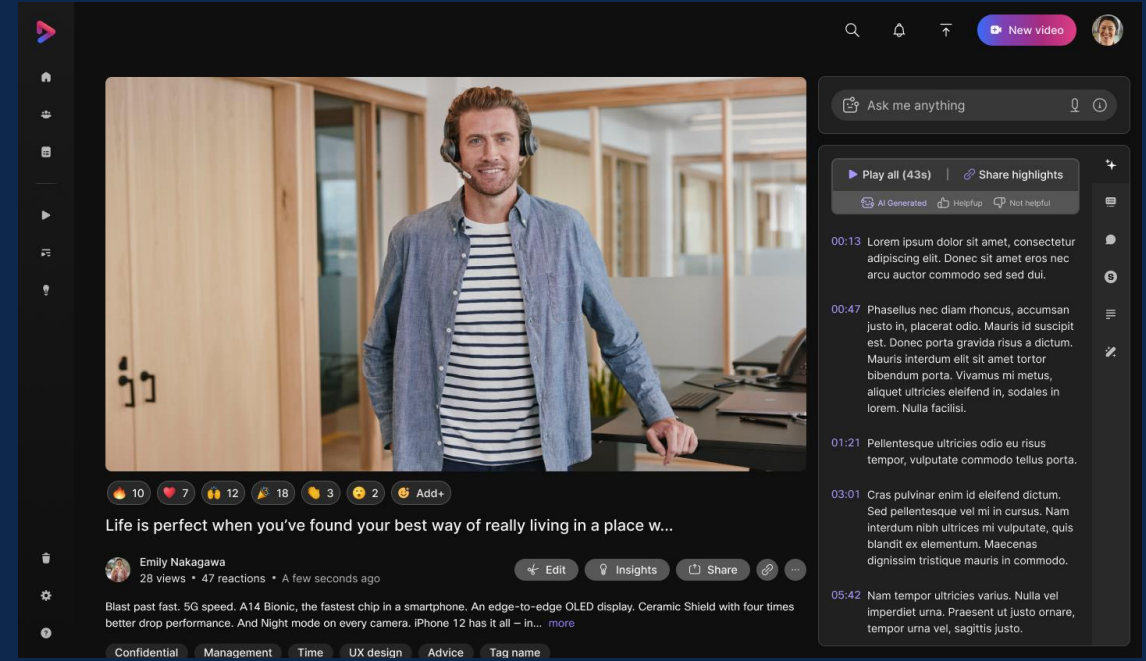

# Supresor de Ruido

- Habilidad para remover ruidos de fondo en tiempo real durante sus sesiones.

# Inteligencia Artificial con puntos Destacados y Capítulos Inteligentes

- La información será generada de forma automática gracias a la inteligencia artificial.

Introduction Tutorial Examples Shortcuts

## Introduction

With macros, you can create your own snippets of code that run on the video system, to automate parts of it, creating custom behaviour.

The language is JavaScript / ECMAScript 6 with support for modern features such as arrow functions, promises and classes. Many of the standard built-ins are available, such as timers, date functions and regular expressions.

Be sure to read the [Tutorial](#) and check out the [Examples](#) section for ideas to get started.

Also, check [roomos.cisco.com](https://roomos.cisco.com) for API references, more guides and examples.

## XAPI Reference

For full XAPI documentation, please refer to product command reference:

[DX & Desk](#) | [MX](#) | [SX](#) | [Room](#) | [Board](#)

XAPI integration in macros use the [jsxapi](#) library.

## API reference

Importing the xapi library:
